# Why do You ask Us for so Much Money

### CANADIAN PATRIOTIC FUND?

They are entitled to the most complete answer, for the Fund is the people's. They created it, and it is they who must maintain it.

Now for the reasons. There are 149,230 of them.

The Fund airle for so much money because Canada has given her men to lavidily to the Great Cause. Between 300,000 and 400,000 have voluntered. If their families need help, this Fund provides it. In October 53,693 families did need it. These families compised 149,210 persons nearly all either mothers, wives or children. Is it say wonder that so Great a need requires so Great a Fund?

### HOW GREAT IS THE NEED OF MONEY?

(In above averages, sums paid for broken p

The sum expended in October. \$891,814.00 1916, was.

The average payment to each family was.

16.29 The average payment to each person was .... The cost of administration 15.464.00 THE CANADIAN SOLDIER'S WIFE

Her husband is fighting for us, so that we may live in peace, comfort and security at home. Are we going to let his loved ones want!

Psy special attention to the figures concerning cost of administration—including expense of campaigns for raising money. This the ambition of the managers of the Front to kery the cost of raising and disbursing it below that of any voluntary fund ever created in Offanda. Their aim is to hand to the soldier's families may simble the memorated cents for every officer subscribed. They succeed in handing 59] central received in October as interest on more formation of the cost of administration. The remainder is \$4,000. And that, therefore, is all that had to be deducted from sums paid in.

That is to say, of every \$100 subscribed and paid out from the inauguration of the Fund to Oct. 30, 1916, \$99.46 reached the families. Is not that economy which should give confidence to every subscriber?

Des the magnitude of the Fund, as well as its importance, begin to impress you, Mr. Citizen-who is being-asked-to-subscribe-\$100, or you, from the Municipal Council, who are being urged to wote \$100,000 for 1917. Does the REQUEST look as large as it did now that you know something more of the NEED'S.

Of this sum Ontario is being asked to guarantee—and will guarantee—at least..... This is one million more than in 1916, but every dollar will be required for Ontario's families. Not much chance for individuals or counties to economice by cutting down their contributions, is there? On the contrary, the giving must be on a scale more generous than ever. And why If we can't FIOHT, tan't if a Privilege rather than an obligation to PAY?

# One Word More:

No man should fences his persuant responsibility tinwards the families of those who are fighting for him, simply because his Municipal Council against slightly for the same object. He twees these people far more. Perhaps he is too poor to pay more. If not, it is up to him to give a us cheque to his local Patriotic Fund Committee, or mail it to

## The Poet's Corner

A MODEL HUSBAND

Who Will Follows
I never fight,
I never fight,
I always come
Straight home at night,
I always give
My wife my pay
Not hold it up.
A single day,

I have no lodge, I have no club; Perhaps you think That I su a dub. Maybe I am. But even so. It saves me lots Of fuss and woe.

No crap games
Out behind the shed,
With Jim and Bill.
And Tom and Ned,
Those good old sports
I used to know,
For wife says
They've got to go.

And sad to say,
Her word is law,
Or she says she'll
Go home to ms.
Perhaps you think.
That I'm too nico.
But I'm far peace.
At any price.

The First Series of January Weekly Sales

The plan of sales is to be something different every week which provides a continuation of values and the supplying in many cases, goods that cannot be replaced at the prices quoted.

Five Special Features in the Silverware line for this week's Friday and Saturday Safe, all in daily use and very practical (note them) Cassoles, Pie Plates, Bake Dishes, Cake Plates, Berry Spoons.

Sixth Feature in connection with our January Sale. It is one of the T. Blackburn features of trying to serve and give value. It is just possible with some that the \$2.00, the \$5.00 or the \$10.00 to purchase with is just not consome that the \$2.00, the \$5.00 or the \$10.00 to purchase with is just not convenient to pay at once and yet you wish to avail yourself of this special opportunity and here is where the special feature comes in. We will be pleased to have you call and make the selection, pay a small deposit, and have goods reserved, the balance pay weekly or monthly as suits your convenience,

January, Pebruary and March are usually the quiet months with the jeweler. Our wish is to have it otherwise, and believe with this special inducement and your co-operation they can be made three of the bright months. of the year"

KELLOG'S FIVE WIVES

# If ever you would give give now "BEAR YE ONE ANOTHER'S BURDENS

'Tis an old saying-sometimes a hard one-but worthy of all acceptation,

Take a present-day illustration. British Columbia—out there under the setting sun—is helping to bear Ontario's burdens. She has sent to the front—that shell-torn front in France—a larger proportion of her manhood than has Ontario.

Therefore it comes to pass that we in Ontario are being asked to help in bearing British Columbia's burdens by helping its soldiers' families. It's a fair, a just, request. We allsare in the same beat. We must bear one another's burdens. And if one Province, not rich in money, makes heavy calls on the Patriotic Fund, these Provinces must help out their poorer negligible. Under a plan of each Province caring only for its own, the Province sending so ment would spend no money. It

Ontario will need about six million dollars in 1917 for the families of its own soldiers. The Canadia Patriotic Fund is asking for that sum as a minimum below which they richest Province in the Dominion will not go. But, as a matter of fact, the Fund hopes Ontario will do xtill better—will bear another's burdens by helping out gallant British Columbia.

How stands the Weisem Province? It will require, in 1917, two million dollars for the families of its men at the front. That is one-third of Ontario's requirements. But Ontario has probably more than seven times the population. British blood—it is undertaking to raise One Million Dollars for the Canadian Patriotic Fund! That equals \$2.86 per head. Ontario, if it raise six million, will be giving about \$2.38 per head.

But the Western Province will still be short One Million Dollars. Where is this sum to come from / Eastern Canada. And Ontario, if it wishes to help, can do so only to the extent to which its gifts to the Fund exceed Six Million Dollars.

A lot of money, but't it? Yet less than British Columbia is giving, if measured on a per capita basis, and far less if measured by ability to pay. There will be no difficulty in securing the Six Millions if three plans are followed:

## THREE PLANS FOR HELPING THE CANADIAN PATRIOTIC FUND:

1. If all County Councils make reasonably large grants to the national Fund-

2. If all towns, whether separated from their counties or not, will undertake campaigns.

3. If all citizens, in town or country, contribute fairly according to their means

As to No. 1.7 The County Council are to expansing well. Sincoc has decided to largely increase its grant. For 1917 it will be the generous sum of \$120,000. Vectoria, another county patriotic to the core, has doubled its grant, jumping if from \$2,000 a month in 1916 to \$5,000 in 1917. The majority of the County Councils will decide at the January sessions how large their grants will be. Public opinion will have great influence on the Councils. Every county rate-payer, sympathetic towards the Fund, should write or speak to his representative on the Council, endorsing a liberal grant.

As to No. 2. Many towns ignore the duty of holding campaigns. This applies particularly to towns which pay-recointy tax. Yet this tax never represents a fair or just contribution to the Fund from men of moderate or large means. Practically it is based to mysalt the poorer men can afford. The richer should give much more, and they can be reached only through a popular campaign. To relieve anxiety these campaigns should be held in January or Forturary.

As to No. 3. Patriotism of the individual is the basis of the Fund. Everything is built on it. If he will not make some ascending for the sake of the mothers, wives and children of the men at the front, the Fund suffers, and they suffer with the Thie average family on the Fund requires 200 year from it. It is the duty—it should be considered the Privilege—of every Canadian stay-at-hoine to ask himself. For low menty weeks, at \$4 a work, must I, in self-respect and in gratitude, that care of one of these families? If my county taxation for this purpose means that I am taking care of only one family for one week when I could do more, and I doing the eight thins?

The answer to these questions will be found when he sits down and mails his extra gift to his local Branch.

Four million of these dollars must be secured from individual subscriptions. If there is no Branch of the Fund in your town or county send your was released of the the Head Off Head of The Head of t

### Leads by 578 — "Dry-Wets" Union Falls Hearst Government Emphatically **Endorsed** in Bitter Fight

Liberal party leaders to make it ap-pear that the Government of the Hon. W. H. Hearst has not the confidence of the people of Ontaria. The tactics that succeeded in South-west Toronto-an North Perti, where the Liberals joined forces with the anti-temper-ance intervals, fell flat in Simono, and WV. T. Allen, the Conservative cardi-tate goes to the Levislature with a majority of 578 to fill the place left vacent by the Jeath of Hon. J. S.

The defeat of the Liberal candidate was a clean-cut one. I gase Sout was admittedly the best man the Liberals could have secured to carry their standard. He is personally popular, universally respected, and as a farmer he was able to make a special appeal in a riding that is very largety an arricultural one. On the other hand, the Conservatives had in W. T. Allen, a

Together with many machine guns and ammunition there were 100,000 bottles of brandy captured by the Russians in their latest, advance at Riga. This booty may serve as an incentive to the Russians to keep going. Vodka is prohibited in their army—not brand.

Our premonition that the Liberal party of Canada—or rather Sir Wilfrid Laurier with so much of the Liberal party as he could raily for his mad step—has aiready decided to refuse an extantion of the term of Parliament, and to precipitate a general election, gathers corroborative evidence day by day.—Hamilton Spectator.

Some of our war optimums are quite sure that the German people are so passionately desirous of peace at the test that they would welcome it own at the cost of humiliating concessions, we don't believe it. The German people are doubtless suffering many hardships, but that their splirt is broken is too much to believe. # We Wish To Inform The Automobile Public That We Have Been Very Fortunate In Securing The Agency For

This car has many features that are unusual in a car of so moderate a price, and represents a combination of refinement, efficiency and equipment that is more than ordinary interest to the intending purchaser.

## Dodge Brothers MOTOR CAR

There has been no effort to produce a car that would sell at a low price, but there has been a genuine interest in building a car in which the material, the design and the manufacturing practice would represent the highest quality at a moderate price to the purchaser.

All vital parts which are subjected to strain are made from chrome vanadiam steel, drop forgings are used All vital parts which are subjected to strain are made from chrome vanadiam steel, drop forgings are used instead of castings. The finish and equipment have been carried to a high degree of refinement at every point, even to the minor details. An example of this is the beauty and completness of the black enamelled instrument board with its equipment of of oil gauge, current indicator, carburettor air adjustment, speedometer, electric light and locking ignition and lighting switch, all nickel plated and within easy reach of the driver. The fenders are singularly beautiful and it would be difficult to imagine a cowl more graceful or a radiator more shapely. There is a true stream line effect, flowing and unbroken from tonneau to radiator. The wheel base is 114 inches. Timken bearings are used throughout.

To observe the car on the street or on the road is to become instantly impressed with its beauty, to drive it is to realize all the responsiveness and power you require in a motor car

The service we will render in connection with the "DODGE" will be SECOND TO NONE. We have always made it a point to give our customers SERVICE as every Ford owner knows.

### A Boon to Those Who Wear Glasses!

"EVER-LOCT" Section 1

With your lenses mounted the "Ever-Loct" way you will never be troubled with loose, wobbly glasses.

### NO HOLES NO SCREWS

The lenses and mountings are united into one solid piece. There is no chance for the lenses to become loose or out of adjustment. There is less breakage because there are no holes. It is the holes in the old types of mountings that cause most of the breakages.

It will be a pleasure to show you these beautiful and serviceable mountings and also to demonstrate them to you without obligation.

# Economy

Many women think they are saving money by buying cheap tea, forgetting that it is not the cost per pound but the cost per cup that determines a rea's economy.

You may pay 5 or 10 cents more per pound for Red Rose Tea than for common tea. But because Red Rose Tea is a blend of Indian-Assam teas with Ceylons, consisting of the choice tender shoots and buds-the parts of the tea plant that yield the largest amount of liquor and the finest flavor one-third less is required in the pot to make the same number of cups.

The cost per cup between Red Rose Tea and common tea is then practically the same. But the flavor-what a difference!

the flavor—what a difference!

And this distinctive and delightful flavor and rich strength is protected by the Red Rose sealed package. No air, odors or dust can get in to injure Red Rose Tea e splendid quality and economy.

Order a package from your grocer.

In sealed packages only.

### **Current Comment**

Canada's net debt in December was \$723,111,000, the increase during two and a half years of war being almost four hundred million. We don't notice any worry.—Journal-Press.

There will be time enough after the war to raise a national fund for the erection of a monument to Eidth Cavell in Canada. At present the surplus money of Canadians abould be reserved for more pressing war needs.—Ham liton Herald.

"And now what are you going to de for the Patriotic Fund?" Perhaps this is the most important question that can be asked these days. The Patriotic Fund eats up a lot of mon ey, but it's worth going the limit for A German woman in a Mexican jai is calling for help, but the great Ger-man mary is in jail too.

It is surprising that the loyal city of London, Ont., should harbor labor men so blind to the righteess cause for which Canada and the whole Empire is putting forth every effort, as atubborally to resist national registration. Such men are reactionaries of the worst type.—Hamilton Spectator.

The trial of the Winnipeg editors is still going on. It appears to us that the matter is one which the Dominion interested judges. The question of judges stitting as commissioners, have many sides to it, and the law should be made clear concerning it.—Kingston Standard.

With your lenses mounted the "Ever-Loct" way you will never be troubled with loose, wobbly glasses.

### NO HOLES NO SCREWS

The lenses and mountings are united into one solid piece. There is no chance for the lenses to become loose or out of adjustment. There is less breakage because there are no holes, It is the holes in the old types of mountings that cause most of the breakages.

It will be a pleasure to show you these beau-tiful and serviceable mountings and also to demonstrate them to you without obligation.

All of up, cannot fight, All of us—men, women and children— can do something towards winning the war.

Are we seeking that 'Swamething.'' or are we evading it? Are we looking for the "bit" we shabild do, or trying to forget it?

Take the Cannidin Patriotic Fund. It has been created to care for the families of our soldiers in those cases—and those only—where med exists. Experience has shown that this means in two families our of three. Up to December 1, 1916, the people of Canada have given \$16.500,000 to the Fund. \$16,500,000 to the Fund.

That is generous giving, isn't it? But the country is still at war; armies are still growing; the soldiers' families are still in need; the Fund must still be maintained. And what do we find? In every part of the country men crying that they have given enough to the Fund-that Government should now take the burden.

Given enough! When the Canadian lad in the trenches is deadtired, ready to drop in his tracks, does he chuck his job, declare he has given enough, and call on Government to get another man? Given enough! Is there man in Canada has given enough if women and

children are in need while he it the stay-at-home, has a dollar to spare?

No! This Fund, above all funds, has a claim on every citizen who is not himself a pauper. The fact that Government has not assumed responsibility for it is the fact that makes every man responsible for it even if he thinks the Fund should be maintained by Government moneys.

### Are YOU beloing to

### Government Should Not Control, Because-

 Government would have to treat all alike. The Fund helps only those in need. If Government paid the families of each soldier the average sum paid by the Fund the extra burden on the country would be between eight and nine. million dollars yearly.

By paying the average sum those families in dis-tricts where cost of living is low would receive more than they need; those in high-cost areas would be paid too little.

3. Costs of administration would be enormously increased This work is now done, for the most part, by willing workers without cost, Of every hundred dollars subscribed, Ninety-nine Dollars and Forty-six Cents go to the families of Never was a voluntary fund so economically administered.

4. The work would suffer. There would be no more of the friendly, almost paternal, relation now existing between the administrators of the Fund and the families. Government works automatically. The Fund's Visitors are friends in need, therefore firefully indeed.

Taxation would be unequal, for some counties and some provinces are already taxing their people for this Fund. Are they to be taxed again by the Federal authority?

6. The richer classes would be relieved of work they are chearfully doing. They are now bearing, and bearing because they have the financial power and the patriotic willingness, the larger share of the burden.

willingness, the larger snare or the outcome.

7. The Fund blesses him that gives. It is a vehicle for public spirit—a channel for patriotic endeavor. The work of administering it has uncovered unknown reservoirs of unselfishness and sacrifice. Men and women have thrown the fundamental control of the surface of the surf

8. Last, but not least: Government control means g the money by selling Government bonds. Governraising the money by selling Government control means raising the money by selling Government bonds. Government bonds mean future taxation. And that means that the returning soldiers will pay, through long years, a large share of the cost of caring for their families—a cost we, the stay-athomos, pledged ourselves to bear.

Men and women of Ontario: Bend your backs once again to this burden of

### Show Your Practical Sympathy with Slave-Raided Belgium

If ever Belgium needed sympathy—OUR sympathy—she needs it now! To the ravages of fire, sword and a savage, brutish soldiery, Germany has added deliberate, cold-blooded slave-rating.

Over 100,000 Belgian workmen have aiready been snatched from their homes and taken into alevery in unknown places. The mothers, wives and children who places. The mothers, wives and children who places. The mothers, wives and children who protests have failed to change Germany's inhuman purpose, the Allies free Belgian manhood until the Teutons are crushed.

But we can save the women and children through the neutral Belgian Relief Commission, which is feeding three million of them can express our indignation, and our sympathy with our Ally's wrongs, in a practical way, by giving more liberally than ever to the Belgian Relief Fund.

"EVER-LOCT" Mountings Mean EVER-TIGHT Lenses

The result is greatest satisfaction to the aser No Holes--No Screws-Lenses Always Tight

With the "EVER-LOCT"
Mounting you will never
be troubled with loose,
wabbly glasses. There
can be no chipping of the
lenses because there are
no holes or screws.

"EVER-LOCT" A Boom To Those Who Wear Glasses.

This mounting reduces breakage to a minimum because it does away with either holes or screws through the lenses. It holds the lenses positively upth and tight to stay, hence, with the 'EVER-LOCT' Mounting your glasses will always remain in the same position as originally adjusted for you main in the same position as originally adjusted for you.

The old hole and screw method is neither signtly nor satisfac-tory after short service. The "BVBR-LOCT" system ensur-es you an Byeglass or Spectacle Mounting that will lend beauty to the face and forever end all of the annoyances in-cident to other types of mounting.

have built up our great business—the largest of its kind in Canada. We have spared no expense in organizing and establishing a Mail Order Service that is second to none in Canada, for the accomposition of our Ontario friends. For thirty-five years we have handled only goods that give entire astisfaction.

Please remember, wines and liquors sold on draught by the gallon are frequently of unknown quality and below the standard strength.

Every brand advertised over our name and sold by us is guaranteed to be pure, of standard strength and full measure.

Cheap Tea

Not Economical!

Many people complain about the poor flavor of the cheap tea they are using, but are trying to put up with it because they think they are saving money.

In reality, cheap tea is rarely more economical, often less economical, than Red Rose Tea.

often less economical, than Red Rose Tea.
While Red Rose Tea may cost a fepr eents more, or even 10 cents more per pound, than common tea three teaspoonstal of Red Rose Tea are equal to five teaspoonstal of common tea.

Less Red Rose Tea is required in the tea pot, because this master blend of Indian-Ceylon teas consists largely of the Inmoons fall grown teas of Acasan, India.

of hashin, and a sexcel in vigor, richness and strength. Their leaves yield more liquor and a fuller flavored liquor. Blended with Ceylons they make the ideal tea for flavor and economy.

Try a scaled package of Red Rose Tea and keep count of the extra number of cups it yields in comparison with cleap teas. You will find that Red Rose is worth every cent asked for it—and that it costs no more to use this delightful tea.
